Colour: White, Black

Description

Riptide Terrova is the hardest working first mate you'll meet. One that doesn't take breaks and doesn't know the meaning of the term "day off". With available shaft lengths up to 100", Riptide Terrova comes ready to go where other trolling motors won't. The new QUEST series of dual 24/36 volt brushless trolling motors was designed for anglers who demand the best from their equipment – even in the harshest environments. With a reinforced motor and mount, more advanced GPS functionality than ever and even an eco mode to extend battery life, Terrova is ready to tackle the elements and feels right at home on bigger boats than ever before.

QUEST Series: These 24/36V dual-voltage brushless motors have been completely re-imagined from the ground up with updates to mounts, propellers, lift assist systems, drive motors and software – taking the world's greatest trolling motors and redesigning them to outperform everything else on the water for years to come.

Features:

- Stow/Deploy Lever
- Advanced GPS Trolling System
- Part of the One-Boat Network
- Spot-Lock with Jog
- Drift Mode
- Real-time Battery Monitoring
- Digital Maximizer™
- Indestructible Composite Shaft
- Guaranteed for Life
- Mobile App Compatibility
